I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

REASON FOR ALLOWANCE

1. The Examiner finds applicant's claim amendments to independent claims 19 and 30 sufficient to overcome the teachings of prior art of Carlson et al. (US Patent Publication No. 2005/0055391) and Crouch et al. (US Patent No. 5,383,143). The Examiner notes that neither cited reference teaches applicant's newly amended claim limitations of: "a mixing logic connected between said true random number generator and said pseudo-random number generator, said mixing logic generating said random seed based on said random sequence of bits and altering the behavior of said pseudo-random number generator based on said random seed and said pseudo-random sequence" and applicant's newly amended claim limitation of: "alteration signal generator generating an alteration signal, said alteration signal altering the behavior of said pseudo-random number generator at multiple random instants in an interval between the arrival of two subsequent seeds, thereby obtaining, in said interval, multiple pseudo-random sequences of random lengths shorter than the random length determined by the arrival of two subsequent seeds". Dependent claims 20-29 dependent on independent claims 19 and therefore are allowed. Dependent claims 31-36 depend on independent claim 30 and therefore are allowed.

2. The Examiner notes the teachings of Dirscherl et al. (US Patent No. 7,480,687). The Examiner notes that the above reference was obtained as a result of an updated prior art and interference search. The Examiner notes that Dircherl discloses both feed-forward and feedback signal lines coupled to pseudo-random means. However the

Art Unit: 2431

Examiner notes that Dricherl does not teach applicant's claim limitation element of:

"alteration signal generator generating an alteration signal, said alteration signal altering the behavior of said pseudo- random number generator at multiple random instants in an interval between the arrival of two subsequent seeds, thereby obtaining, in said interval, multiple pseudo-random sequences of random lengths shorter than the random length determined by the arrival of two subsequent seeds".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Accordingly, Claims 17-36 are allowed.

Response to Arguments

The Examiner notes applicant's remarks made on 3/25/2010 have been considered.
